

UBUNTU DESKTOP SETUP

Standard Procedure for Bare-Metal installation of Ubuntu Desktop

Server Specification (minimum)

- Storage capacity 500GB
- Memory 8GB
- Processor speed core i5, 3.0 GHZ

Prerequisites

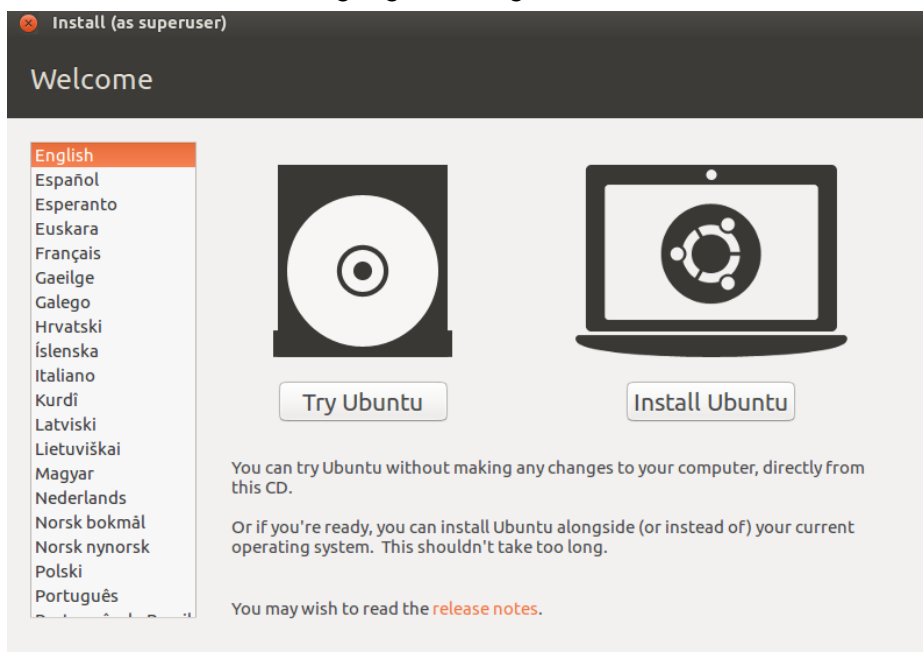

- Bootable Ubuntu Ubuntu 16.04 LTS image

Installation

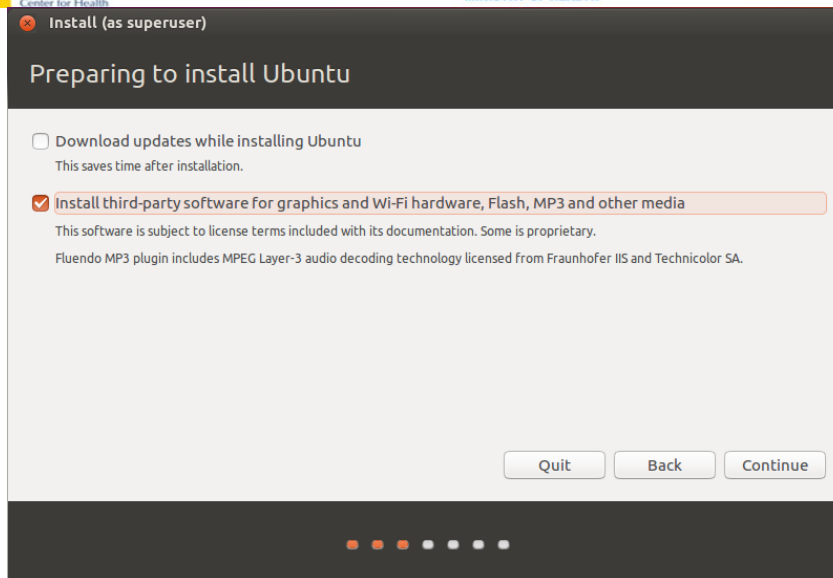

1. Install Ubuntu 16.04 LTS

Ref: <https://releases.ubuntu.com/16.04/>

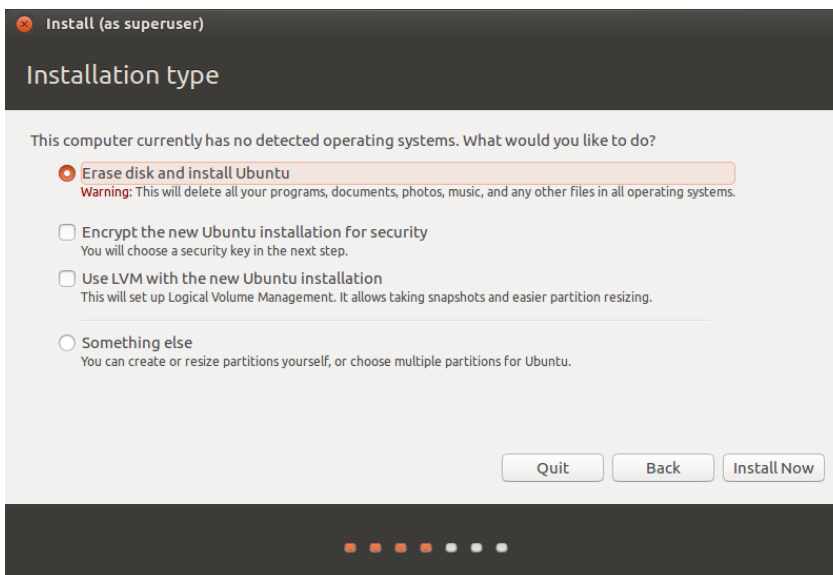

- Insert the Ubuntu disk into your DVD drive or insert your USB drive.
- *Restart the computer.* You will see the Ubuntu logo.
- *Click on the **Install Ubuntu** button.* The installation wizard will appear.
- Select the desired language i.e. English and *Click **Continue**.*

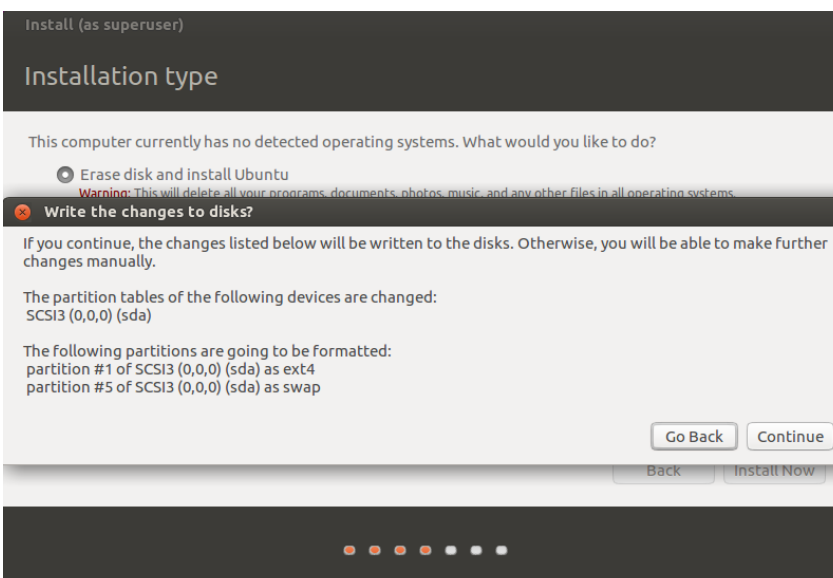

- The **Preparing to install Ubuntu** windows will appear.
- Select **install this third-party software** and *Click **Continue**.* The **Installation type** windows will appear.

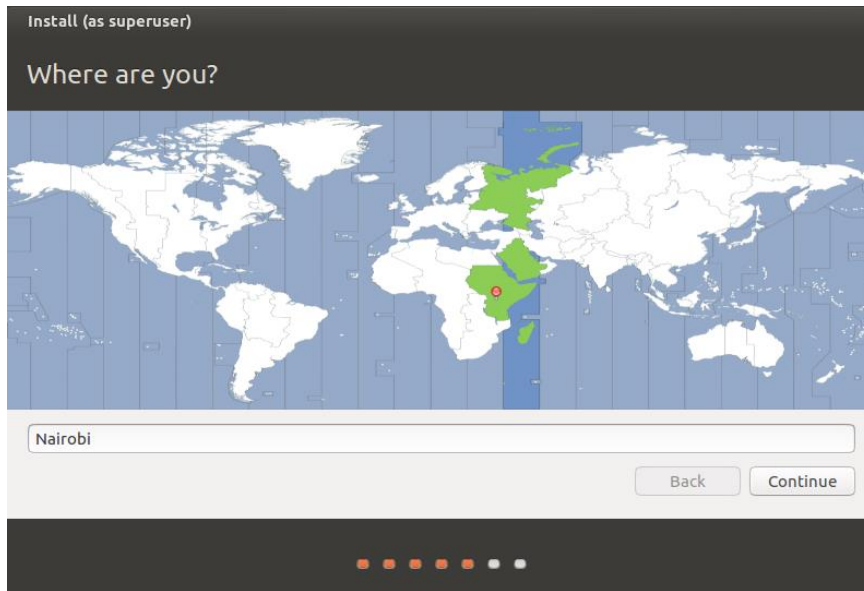

- **Select *Erase disk and install Ubuntu*, then Select the hard drive that you want to install Ubuntu in. Click *Install now***

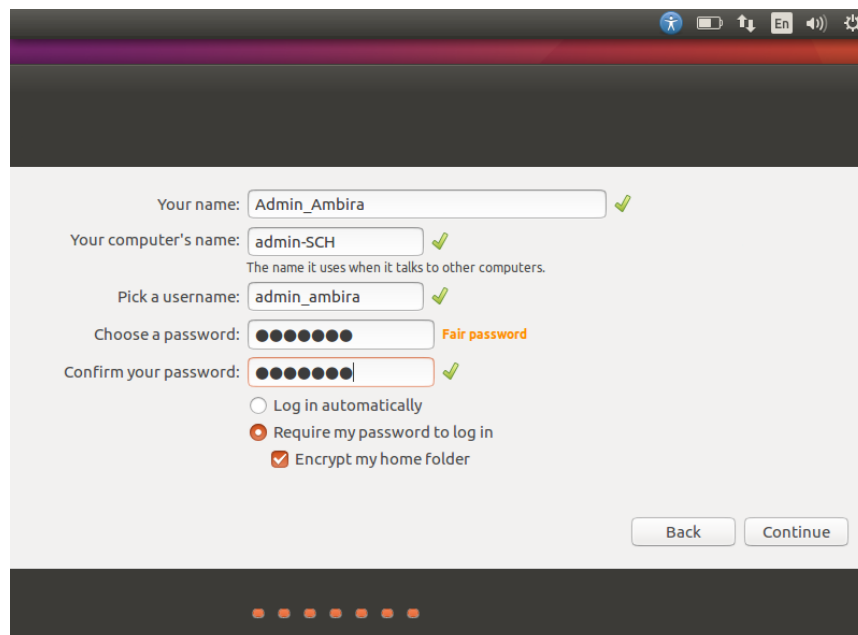

- **On the *Write the changes to disk?* Window *Select continue***

- On the **Where are you?** Window *Select Nairobi* on the world map and *Click continue*. The **keyboard layout** window will appear.

- On the Keyboard layout window, *Select English (US)* and *Click Continue*. **Who are you?** Window will appear.
- On the Who are you? Window, *Choose user name for your account and name your computer*.
- Your name: *Please type: Admin_Facility name, e.g. Admin_Ambira*
- Your computer's name: *Please type in the health facility name using this format: Name-XXX where XXX is either SCH for Sub County Hospital, or CRH for County Hospital, HC for Health Centre, DISP for Dispensary, eg Ambira-SCH, etc.*
- *Pick a username:* Leave it the way it is i.e. admin_facility name, e.g. admin_ambira
- *Choose a password:* test123
- *Confirm your password:* test123
- Select **Require my password to log in** and click **Continue**.

- When the installation wizard finishes, the **Installation complete** window will appear and the cd tray will eject. Remove the installation disc or USB drive.
- Click **Restart now** to restart your computer. You have now successfully installed Ubuntu 16.0.4LTS.
