

REPORT GENERATION IN TAIFACARE VERSION OF KENYAEMR

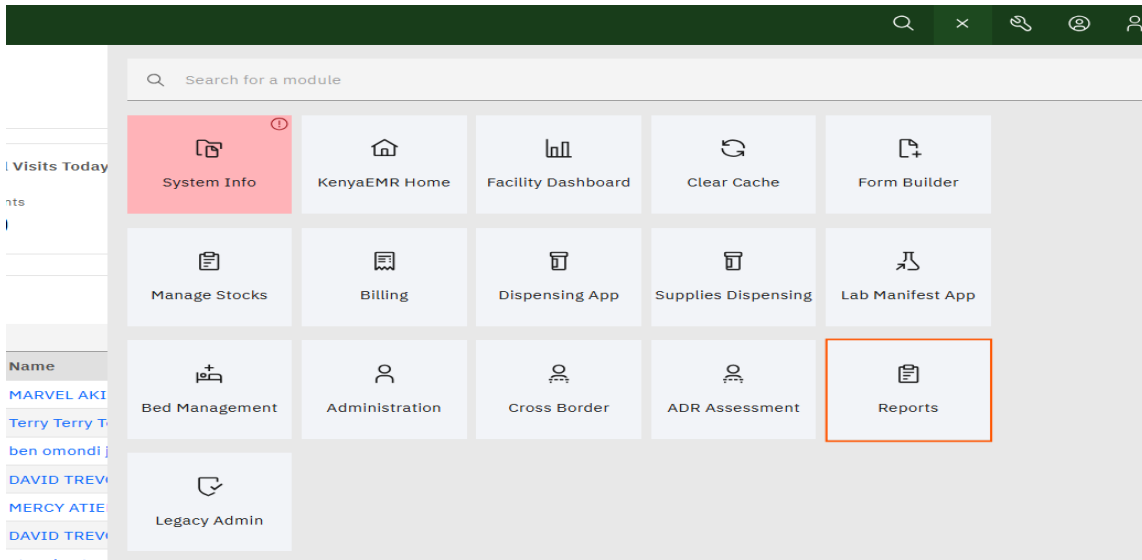

Last updated Aug 2025

Tasks: Run and generate related reports and registers from TaifaCare

Objective: Review documented data in all supported services in TaifaCare

Who: Doctor, Clinical Officer, Nurse, Health records officer or data clerk

Required Materials: Username, password, computer with TaifaCare installed.

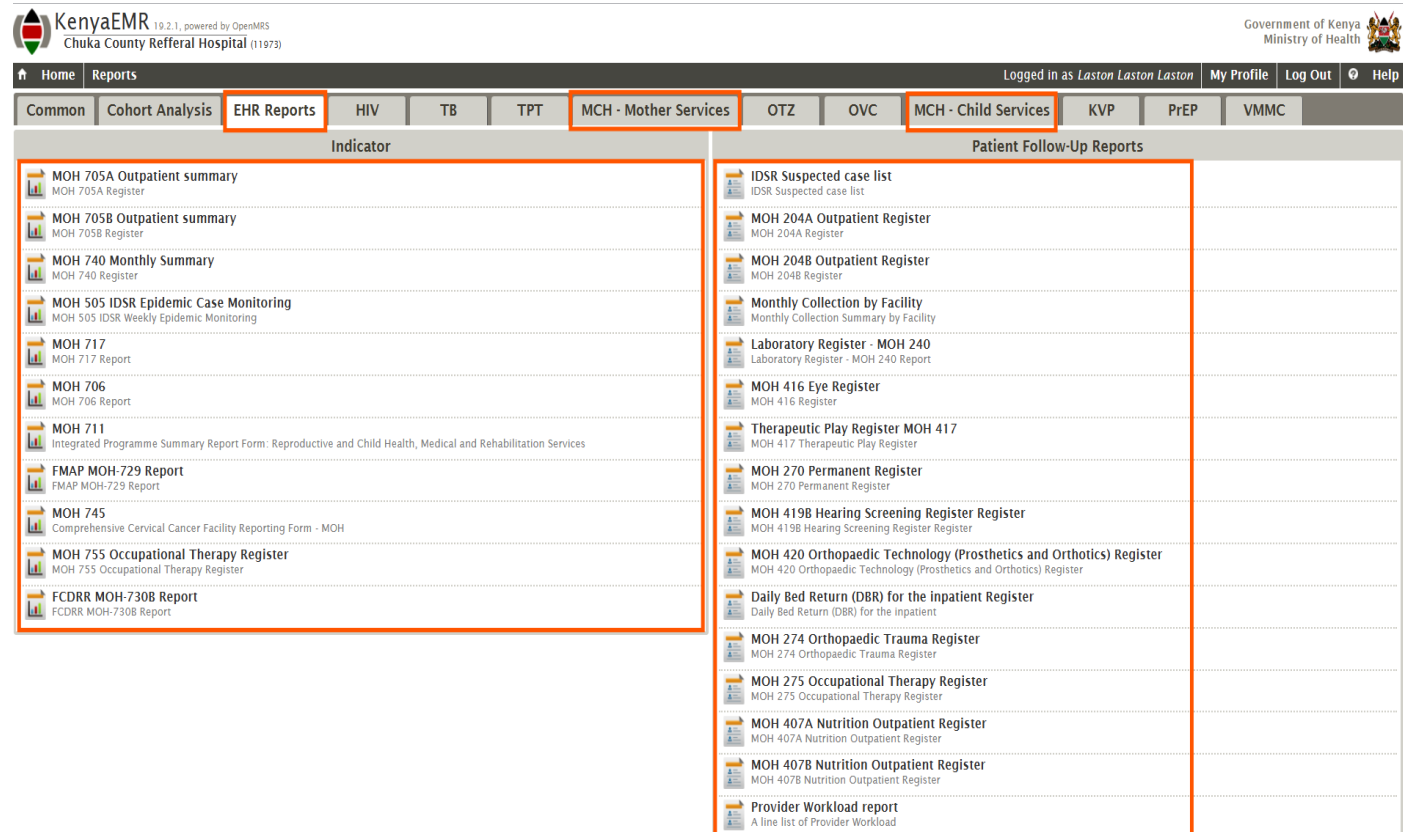

Step	Action	Screen shots
Step 1	Reports Location in TaifaCare This describes basic steps in pulling related reports from TaifaCare. Steps - Locate the application icon shown below  - Locate and click report button. This will open the reporting page in 2.x window.	

Step 2

Example: Generating MNCH Reports

For MCH related reports/ registers, locate the **MCH-Mother services** tab (for Mothers) and **MCH-Child services** for the baby. Select the report of interest and click on it.

EHR reports are also available. Use the same method to execute them.

Step 3

Accessing the Reports from selected Tab

Select a report or register that you would like to generate under the selected tab. Click and proceed to next window.

Step 4

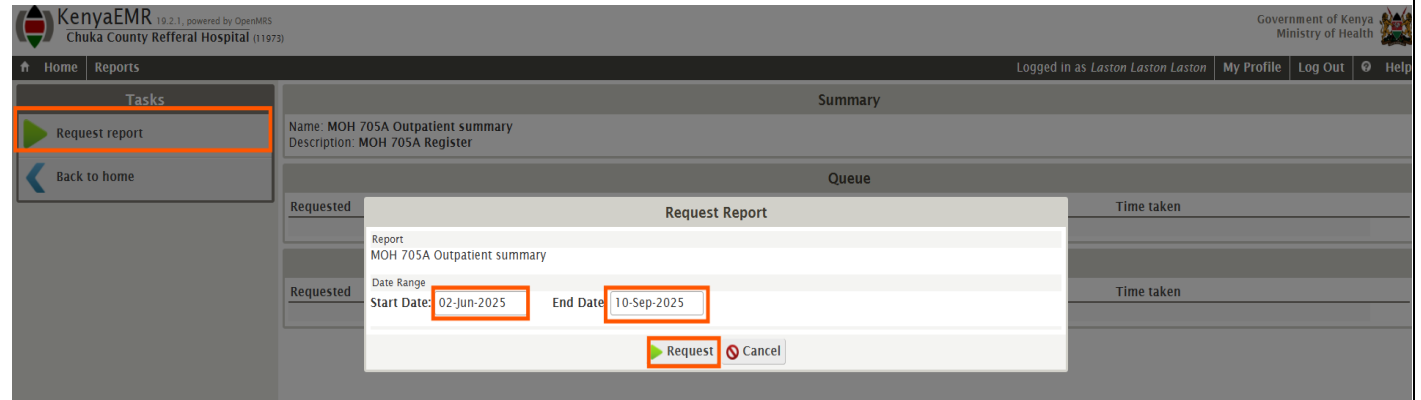

Types of Reporting Intervals

The period of interest can be a range or a specific period.

For report that require a period interval, supply the **start date** as well as the **End Date** and click Request.

For reports that only require a single month, only fill that month, and click Request.

Some reports don't require any date to be supplied. In this case just click **Request** to proceed.
