| Learning Objectives | By the end of this session, you will be able to: <ul style="list-style-type: none">• Successfully log into TaifaCare.• Successfully Register Child into TaifaCare.• Successfully documented all encounters in MCH and Child immunization. |

Instruction

Enter the application server URL System “localhost:8080/openmrs” on the browser and click on the load button or Enter key from the keyboard to load login page.

On successful loading, authenticate entry by providing username and password on the fields, then click “Login” button

Illustration

The illustration shows the login process in the TaifaCare system. On the left, the login page is displayed with the TaifaCare logo and the text "Powered By KenyaEMR". There are two input fields: "Username" and "Password". A yellow callout box labeled "Enter username and Password to login in" points to the Username field. Below the fields is a green "Login" button with a right-pointing arrow. A yellow callout box labeled "Click to login" points to the Login button. On the right, the "Welcome Admin" screen is shown. It has a search bar labeled "Search for a location" and a list of locations: "Main/1 Sub County Hospital", "Main Store", "Main Pharmacy", and "Non Pharm". A yellow callout box labeled "Select login location from the list" points to the list. Below the list is a checkbox labeled "Remember my location for future logins" and a "Locations" input field. A yellow callout box labeled "Click to login" points to the Locations field. A large blue arrow points from the login page to the welcome screen.

After successfully logging in, the Home page will load showing active visits.

Click on the search icon to search for the Child by name

Next search for the client using the name

The screenshot shows the TaifaCare dashboard for Marindi Sub County Hospital. A search bar at the top right contains the text 'cwc child' and shows '1 search result'. The search result is a card for 'Child CWC Test' with a 'CCT' tag, 'Male - 12 mths, 8 days', and 'OpenMRS ID: MQU6N3'. The dashboard includes a left sidebar with navigation options: Dashboard, Registration, Triage, Consultation, MCH, Admissions, Procedures, Radiology and Imaging, Laboratory, Pharmacy, Accounting, Reports, and Mortuary. The main content area features two charts for 'Top 10 Diseases under 5' and 'Top 10 Diseases over 5', both currently empty. Below these are three summary cards: 'General OPD /Attendance <5 years' (0), 'General OPD /Attendance >5 years' (0), and 'Number of Emergency Cases Seen' (0). At the bottom, there are two more cards: 'Total Number of Referrals - DI' (0) and 'Total Number of Referrals - OUT' (0). A section titled 'Admitted/OPD Visits' is also present but empty.

Step 3: Recording Child Immunization Details

Check in the child for the visit. Locate the immunizations tab under Patient Summary as highlighted.

Step 4: Cont...

On the Immunization form, Specify the Vaccination date / time.
 Locate the vaccine that is being administered today. (If retrospective, record all the vaccinations and specify the respective date of administration).
 Specify the Lot number and the expiry date.
 Specify the dosage and units.
 Set the date given and the date of the

| Recent vaccination | Vaccination date |
|--------------------|------------------|
| Rotavirus vaccine | Today |

next visit.

No concurrent vaccination under patient profile under immunization click on add as highlighted and immunization form will be displayed.

Under Vitamin A Sections, Specify the vitamins given and the date.

If fully immunized, set the date the child is given the last vaccine.

Click Save to submit

NB: Child immunization details should be recorded as they happen.

The same form will be updated whenever a vaccination is administered.
